EXPERIENCE

NUVEM INC, ARACAJU, SE · MARCH 2017 – PRESENT (2 YEARS)
MOBILE DEVELOPER (REMOTE JOB)
I have been working as a mobile developer for NUVEM INC startup creating its most promising product which is a group chat application for IOS and Android platforms. In addition, I have been taking front-end web development courses aiming a potential web integration with that application. *Required skills: Javascript, React-Native, ReactJS, Redux, Google Firebase and RESTful API.*

PETROBRAS S/A, ARACAJU, SE · MARCH 2016 – MARCH 2017 (1 YEAR)
WEB DEVELOPER
I worked as a full-stack web developer at PETROBRAS maintaining and improving a web application under ASP.NET architectures. On that job, I fixed some bugs and migrated several features from WebForms architecture to MVC and then our client was really satisfied and I felt really proud. *Required skills: C#, HTML, CSS, jQuery, ASP.NET (WebForms and MVC), SQL (Oracle DB) and Entity Framework.*
